

Act signed into law—a dream long overdue, a dream of the Dingell family, a dream finally realized for all Americans.

To work alongside JOHN DINGELL is to be inspired by his strength and passion, by the history of our institution, by the seriousness of our work. This year, we recognize JOHN DINGELL as the longest-serving Member in Congress. But it is not only about the length of his service—it is about the quality of his leadership.

It is an honor to serve with him as a colleague. It is a privilege to know him as a friend. It is a source of pride to work with this living legend in the Congress of the United States.

May we all continue to be moved and strengthened by the dedication, commitment, and conviction of the great JOHN DINGELL.

## OFFSHORE ENERGY AND JOBS ACT

SPEECH OF

**HON. SANDER M. LEVIN**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 27, 2013*

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 2231) to amend the Outer Continental Shelf Lands Act to increase energy exploration and production on the Outer Continental Shelf, provide for equitable revenue sharing for all coastal States, implement the reorganization of the functions of the former Minerals Management Service into distinct and separate agencies, and for other purposes:

Mr. LEVIN. Mr. Chair, I strongly oppose the offshore drilling bill before the House. Sadly, this legislation is representative of the unbalanced, partisan, and ultimately self-defeating approach that the Republican Majority has taken on energy issues.

H.R. 2231 would mandate lease sales along the east and west coasts and elsewhere with inadequate environmental review and scant attention given to local concerns. In total, leasing would be mandated off the coasts of 14 states, whether they want it or not. If this heavy-handed giveaway to the oil industry seems familiar, that's because it is. Last July, the Republican leadership brought a nearly identical bill before the House. That bill never advanced beyond the House, and this drilling bill won't either. The Senate won't take it up. The President has said he'd veto it, so other than demonstrating the Majority's fealty to Big Oil, why are we again wasting the House's time on this?

We're told that this bill is about making the U.S. more energy independent. Let the record show that domestic energy production is booming under the current Administration's policies. In 2012, American oil production reached a 20-year high. Natural gas production is at an all-time high. The U.S. is expected to surpass Saudi Arabia as the world's top oil producer within seven years.

We're also told that this bill is all about driving down gas prices for American families. What guarantee do we have that the oil and gas production mandated by this legislation would actually stay in the United States? Over the last decade, U.S. exports of petroleum products like gasoline and diesel fuel have nearly tripled. Every day U.S. refineries export

millions of gallons of refined petroleum products, including gasoline and diesel. This is no doubt good for the petroleum industry's bottom line, but it's hard to argue that it helps consumers at the pump.

At the end of the day, the country needs an all-the-above energy strategy, including responsible oil and gas development, increased energy efficiency, support for renewable energy, and investment in advanced energy research and development. Unfortunately, the House Majority remained locked in an oil-above-all policy. The oil drilling bill before the House deserves to be defeated.

## CELEBRATING THE HUNTERDON MEDICAL CENTER

**HON. LEONARD LANCE**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Friday, June 28, 2013*

Mr. LANCE. Mr. Speaker, I rise today to celebrate the Hunterdon Medical Center for sixty years of excellence in medicine. The Hunterdon Medical Center is a product of community initiative, with county residents petitioning the Hunterdon County Board of Agriculture to build a hospital—the last county in the state without one. In 1953, the medical center opened its doors and has since built an esteemed reputation providing expert care.

The Hunterdon Medical Center attracts excellent doctors from our finest medical schools. They come to practice in Hunterdon and to live and work in one of the most beautiful areas in the country. The Family Practice Residency Program is among the oldest in the Nation, and one of the most respected.

New Jersey is a world leader in medical and biopharmaceutical research and development and the Hunterdon Medical Center is a proud partner in this distinction. I commend the physicians, nurses, support staff and community of the Hunterdon Medical Center for sixty years of fine work.

## PERSONAL EXPLANATION

**HON. VICKY HARTZLER**

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Friday, June 28, 2013*

Mrs. HARTZLER. Mr. Speaker, on Thursday, June 27, 2013, I was unable to vote. Had I been present, I would have voted as follows: on rollcall No. 296, “yea,” on rollcall No. 297, yea, on rollcall No. 298, yea.

HONORING CARL BENNETT, A FOUNDED FATHER OF MODERN PROFESSIONAL BASKETBALL AND THE NATIONAL BASKETBALL ASSOCIATION

**HON. SUSAN W. BROOKS**

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Friday, June 28, 2013*

Mrs. BROOKS. Indiana. Speaker, I rise today to pay tribute to Carl Bennett. I was honored to know Carl for over two decades

and will mourn his passing. He passed away on May 15, 2013, at the age of 97½, but his legacy will continue to inspire basketball coaches, players, and fans for generations to come.

Carl Bennett was born in Rockford, Indiana, in 1915. He began his illustrious career first by playing for Fred Zollner's Pistons softball team and later served as the head coach and general manager of the Fort Wayne Pistons professional basketball team, also owned by Zollner. Under his leadership, the Pistons were invited to leave the National Basketball League and become part of the Basketball Association of America. This meeting in Carl's Fort Wayne home led to the merger of the two leagues and, ultimately, to the modern National Basketball Association. As a result of his involvement, Carl served on the NBA's executive committee and is considered one of the founding fathers of professional basketball.

Carl's influence led to many changes in the way basketball, Indiana's favorite game, is played. He encouraged Zollner to buy a team plane, a first for a sports franchise, and his coaching of the Pistons in a 1950 win over the Minneapolis Lakers led to the introduction of the 24-second shot clock. This major change resulted in a dramatic increase in average game scores. One of Carl's foremost contributions to the game was widening the lane from six feet to twelve feet, a change that is still in effect today. He also successfully campaigned for Fred Zollner's enshrinement in the Basketball Hall of Fame.

Carl Bennett was a man of vision and determination. My condolences and well wishes go out to his wife, Mrs. Carol Popp Bennett, his children Kirk and Gary Bennett, Sandra Dodane, Catherine Popp Hoffman, their spouses, his sister Bertha Bennett Christie, his eleven grandchildren, thirty great-grandchildren, and five great-great grandchildren. His loving touch will be missed by everyone who knew him, and he will be always remembered for transforming so many lives through the wonderful sport of basketball.

## INTRODUCTION OF THE INTERSTATE LAND SALES UPDATE ACT OF 2013

**HON. CAROLYN B. MALONEY**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, June 28, 2013*

Mrs. CAROLYN B. MALONEY of New York. Mr. Speaker, I rise to introduce the Interstate Land Sales Disclosure Act Update of 2013.

The Interstate Land Sales Disclosure Act was enacted in 1969 to protect consumers from being sold property where the property's description in the contract and related materials was not what was to be delivered to the buyer.

It was intended to protect out-of-state buyers who were sold land that was not what was advertised and provides a right of action to rescind the contract and walk away from the deal. However, Courts have ruled over the years that ISLA applies to condominiums, and developers are required to file redundant paperwork that is unnecessary and out of keeping with modern condominium development.

During the economic downturn, some buyers have used the recording requirements of
